When a valid TV code is programmed, the POWER key will turn on or off the TV.

Use the remote control's keys to perform actions described below (see the Key Functions section).

Programming TV Control

The UDI Delco remote control is pre-programmed at the factory to operate the Digital Adapter. The UDI Delco remote also contains a universal TV library to allow you to control the Power and Volume of your TV.

1. Turn on the TV.

2. Press and hold SET until the Red Light blinks twice, then release SET.

3. Press the code button for the Red Light blinks twice, then release SET.

4. Locate the code for your device in the list of codes presented. Once you have located the code, try changing the TV’s channel 10 times in 1-second intervals. Use the Set key to turn off the remote.

5. Aim the remote control at your TV and press the Power button. The device should turn off. If it does not respond, repeat steps 2 to 4, trying each code listed for your brand until you find one that works. If it still does not work, try searching for a code.

6. For future reference, write your TV code below.

TV Code:

Searching for your code

If your brand is not listed, you can use the standard remote control to control the TV’s volume control. Press MUTE (located on the bottom of the remote) to turn sound off or on.

Changing Volume Lock

If you have set the remote control using the Searching for Your Code procedure, you can now lock out which five-digit code is operating your TV. Perform the following after setting up your TV to find out which five-digit code operates your TV.

1. Press and hold SET until the Red Light blinks twice, then release SET.

2. Enter in 9 - 5 - 0 - 6 - 8.

3. To code for the first digit, press 1 to 9. Wait 3 seconds and count the number of times the Red Light blinks (e.g., 1 blinks =1), write down the number in the left most TV code box below (end of this section). If no code is detected, the red light will not blink.

4. Repeat steps 1 to 3 for the second, third, fourth, and fifth digits. Finish writing down the code in the TV code box (end of this section).

TV Code:

Changing Lock Code

If you have set the remote control using the Searching for Your Code procedure, you can now lock out which five-digit code is operating your TV. Perform the following after setting up your TV to find out which five-digit code operates your TV.

1. Press and hold SET until the Red Light blinks twice, then release SET.

2. Enter in 9 - 3 - 6 - 7 - 3 - 1.

3. Press and hold the first digit (The Red Light will blink 4 times after the 3).

4. Repeat steps 1 to 3 for the second, third, fourth, and fifth digits. Finish writing down the code in the TV code box (end of this section).

Troubleshooting

When the volume lock sequence or code verification, the Red Light displays one long blink.

Changing Lock Code from the Digital Adapter

1. Press and hold SET until the Red Light blinks twice, then release SET.

2. Enter in 9 - 9 - 8 - 1.

3. Press and release the digit key 2 (The Red Light will blink twice after the 2).

Setup Codes for TV's

Set:

1. Press and hold SET until the Red Light blinks twice, then release SET.

2. Enter in 9 - 3 - 0 - 7 - 3.

3. Press and release the digit key 3 (The Red Light will blink 4 times after the 3).

4. Repeat steps 1 to 3 for the second, third, fourth, and fifth digits. Finish writing down the code in the TV code box (end of this section).
